MARE: Recommended Pre-Foaling Program:

Procedures will be performed if mare hasn't had them prior to foaling:

3, 5, 7, 9 Month – Rhino **7 Month – Flu** **8, 9, 10 Month – Rotavirus**
2-4 weeks prior to foaling:

Endovac (Salmonella) / Flu / Rhino / VEE, EEE, WEE / Tetanus / Strep / West Nile

Deworming – Frequency and product determined by your veterinarian

MARE: Recommended Post-Foaling Program:

These procedures will be performed @ 6666 Ranch:

Caslicks (if necessary) / Float Teeth / Deworm - Via Stomach Tube / Rabies

FOAL: Recommended Post-Foaling Program:

These procedures will be performed post-foaling:

PLASMA (\$700.00) 2.4 liters

We feel that the administration of at least **2.4 liters** of plasma post-foaling will give your foal a much healthier start in life and provide it a greater level of immunity to ward off most neonatal infections. The plasma used at 6666 Ranch as been prepared to provide antibodies for the most common illnesses your foal may encounter.

Enema and medicate Naval at birth (N/C)

IgG within 24 hours of birth (\$35.00)

Penicillin and Gentamicin 3 days following birth (\$30.00)

CBC 7 days from birth (\$25.00)
